

Decision 05-06-018 June 16, 2005

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

In the Matter of the Application of Petar Grabovcic doing business as Alpha-Trans Airporter for authority to operate as a passenger stage corporation between points in San Francisco, San Mateo, Alameda and Santa Clara and the San Francisco, San Jose and Oakland International Airports and to Establish a Zone of Rate Freedom.

Application 05-03-021  
(Filed March 28, 2005)

**O P I N I O N**

**Summary**

This decision grants the application of Petar Grabovcic (Applicant), an individual, pursuant to Pub. Util. Code § 1031 et seq., for a certificate of public convenience and necessity to operate as a passenger stage corporation (PSC), as defined in Pub. Util. Code § 226, and to establish a zone of rate freedom (ZORF) pursuant to Pub. Util. Code § 454.2.

**Discussion**

The application, as amended by letter dated May 19, 2005, requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Francisco, San Mateo, and Santa Clara Counties, on the one hand, and San Francisco (SFO), Oakland (OAK), and San Jose (SJC) International Airports, on the other hand. Applicant states that passenger traffic between these points is increasing substantially, and this growth is expected to continue in the foreseeable future. He maintains that the service will result in a

reduction in the number of private vehicles operating over the public streets and highways and reduce congestion at the airports' passenger loading and unloading areas.

Applicant states that he possesses the experience, knowledge, and ability to conduct the proposed service. He has operated commercial vehicles for over 20 years, including buses, trucks, and shuttle vans. Service will be provided initially with one 7-passenger van. Applicant indicates that he has the financial ability to acquire additional units as required to meet the public's transportation needs. Attached to the application as Exhibit E is Applicant's unaudited balance sheet as of March 28, 2005, that discloses assets of \$103,400, liabilities of \$12,000, and net worth of \$91,400.

The proposed fares, as listed in Exhibit C of the application, range between \$13 (Millbrae – SFO) and \$89 (Half Moon Bay – OAK). Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares of \$30 and under and \$15 above and below the proposed fares over \$30. The minimum fare will be \$5. Applicant will compete with other PSCs, taxicabs, limousines, public transit, and private automobiles in his service area. This highly competitive environment should result in Applicant pricing his services at a reasonable level. Many other PSCs have been granted ZORFs. The requested ZORF is generally consistent with the ZORFs held by other PSCs.

Notice of filing of the application appeared in the Commission's Daily Calendar on April 4, 2005. Applicant requests a waiver from the provisions of Rule 21 of the Commission's Rules of Practice and Procedure which require service of a notice of the application on all city and county officials within whose boundaries the passengers will be loaded or unloaded. Applicant served a notice to the three involved counties, 12 cities, the affected airports, and public transit operators in the service area. Applicant states that all parties that have an

interest in Commission proceedings subscribe to or have access to the Commission's Daily Calendar. We shall exercise the discretion accorded to us by Rule 87 and grant the waiver requested by Applicant because he will be providing on-call service, not scheduled service, and service on all cities in the service territory would be burdensome.

In Resolution ALJ 176-3150 dated April 2, 2005, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protest has been received. Given this status, public hearing is not necessary, and it is not necessary to alter the preliminary determinations made in Resolution ALJ 176-3150.

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code § 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

### **Assignment of Proceeding**

Richard Clark is the assigned Examiner in this proceeding.

### **Findings of Fact**

1. Applicant requests authority to operate as an on-call PSC to transport passengers and their baggage between points in Alameda, San Francisco, San Mateo, and Santa Clara Counties, on the one hand, and SFO, SJC, and OAK, on the other hand.
2. Public convenience and necessity requires the proposed service.
3. Applicant requests authority to establish a ZORF of \$10 above and below the proposed fares of \$30 and under and \$15 above and below the proposed fares over \$30, shown in Exhibit C of the application. The minimum fare will be \$5.
4. Applicant will compete with PSCs, taxicabs, limousines, public transit, and private automobiles in his operations. The ZORF is fair and reasonable.

5. Applicant requests a waiver of the notice requirements of Rule 21 of the Rules of Practice and Procedure as he has served notice to three counties, 12 cities, the affected airports, and public transit operators in the service area.

6. No protest to the application has been filed.

7. A public hearing is not necessary.

8. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

### **Conclusions of Law**

1. Public convenience and necessity has been demonstrated and the application, as amended, should be granted.

2. The request to waive the notice requirements of Rule 21 should be granted.

3. The request for a ZORF should be granted.

4. Before Applicant changes any fares under the ZORF authorized below, Applicant should give this Commission at least ten days' notice. The tariff should show the high and low ends of the ZORF and the then currently effective fare between each pair of service points.

5. Since the matter is uncontested, the decision should be effective on the date it is signed.

6. Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
